

## Extremes Makeover : Home Edition

StorageMotion Inc. recently participated in the television show Extreme Makeover : Home Edition by providing an automated storage system that included Vertical Carousels, Automated Wardrobe lifts and Remote Control. Despite a difficult and short lead time, everything was in place on time at the home location in Erie PA. The president of StorageMotion, Kurt Krohn, was quoted as saying "They call me the Postman because I always deliver." The show will likely air sometime in the Fall of 2009 and may even be the premier episode.
