

Clothes Carousel

Clothes Carousel Features

- 1) Operates similar to a ferris wheel or a vertical carousel except that instead of shelves that rotate, the clothes rails rotate while carrying hanging clothes.
- 2) 4 to 6 poles units available
- 3) Can quadruple your hanging storage.
- 4) Brings hanging clothes down to a reachable level and brings clothes from the back of the closet to the front.
- 5) Great for moving "out of season" clothes to the back of the closet. Can have a season for each clothes rail!!!

```

We also have carousels for FOLDED CLOTHES such as this custom model to the left. The shelves are 11 inches deep and each shelf moves to the perfect level. It even goes up past the closed cabinet doors at the top to maximize storage.
