

2010 International Builders Show

StorageMotion Inc. attended and exhibited at the 2010 International Builders Show(IBM) in Las Vegas. A ShoeSelect, an Automated Wardrobe Lifter and a cabinet with dual Automatic Doors were demonstrated and displayed during the 4 day conference. We heard many positive comments including how useful our products can be and we were interviewed by the wall street journal and filmed at the conference for a home renovation TV show. Over 430 inquiries for more information were made by builders and cabinet companies during the conference.
